Solo-4 IR Keypads are shipped with the Master Keys uninstalled. 14 Master Keys are included (seven different labels for the left side, seven different labels for the right side).

To install the Master Keys:

1. Remove a Master Key from the “tree”. Note the difference between the left and right side versions

CHANGING THE KEYPAD COLOR

The standard keypad color is white. Different colors are available to replace the Decora® insert and Master Keys. For a complete listing visit www.nilesaudio.com.

To replace the Decora insert and Master Keys:

1. With a small screwdriver or knife, gently pry off the top of the Decora insert (two plastic tabs hold it in place). Remove the bottom of the Decora insert in the same manner. The Master Keys will come off with the Decora insert.
2. To reinstall, snap the new Decora insert in place, making certain that the buttons are seated over the elastomer.
3. Replace the Master Keys by inserting them in the appropriate holes over the elastomer until you can feel them “click” when pushed in.

ADDITIONAL LABELING OPTIONS

If needed, Master Key labeling kits are available with 21 different labels. These kits come in each color.

Each Keypad connects to the ZR-4 MultiZone Receiver by a “home run” of CAT-5 cable with RJ-45 connectors utilizing the T-568A wiring convention. The CAT-5 cable connects to the System Terminal on the back of the Keypad.
